This may be

The first poem is

what I say to you

and what you say

to me.

This may be

but you don't

get to read

get to decide

an argument

or you will

or you may

fall in love,

but you don't

get to decide.

Though choose

you may

But in fortune  
fall in love,

But not fortune

whether or not

to obey

The either/or

you ride

either/or

the fucking

horse.
